## EDUCATION

### BACHELOR OF TECHNOLOGY in Electronics and Instrumentation Engineering

SREE VIDYANIKETHAN ENGINEERING COLLEGE - Tirupati

12/2021 - 08/2024

### DIPLOMA

G. Pulla Reddy Polytechnic college - Kurnool

07/2018 - 09/2021

### Matriculation

kendriya vidyalaya sangathan - Kurnool

03/2018

## PROJECT'S

### A WI-FI BASED SMART WIRELESS SENSOR NETWORK FOR MONITORING AN AGRICULTURE CLIMATE CONTROL USING [ IOT ] TECHNOLOGY

The "Wi-Fi Based Smart Wireless Sensor Network for Monitoring Agriculture Climate Control Using IoT Technology" project aims to develop an intelligent and efficient system for monitoring and controlling the agricultural environment to optimize crop growth and yield. This project integrates Internet of Things (IoT) technology with wireless sensor networks (WSN) to create a real-time, automated climate control solution that can be accessed and managed remotely.

### PERSONAL PORTFOLIO WEBSITE

project is designed to create a professional online presence that showcases an individual's skills, experiences, and projects. The portfolio serves as a digital resume, highlighting the individual's abilities in web development, design, and other relevant areas. This project emphasizes responsive design, user experience, and modern web technologies to create a visually appealing and functional portfolio.

- **Home Page:** The home page provides a brief introduction, including a professional summary or tagline. It offers a snapshot of the individual's personality and professional background, setting the tone for the rest of the portfolio.
- **kills Section:** The skills section showcases the individual's technical and soft skills, often represented through visual elements like progress bars, icons, or infographics.
- **Projects Section:** The projects section is the centerpiece of the portfolio, featuring detailed case studies or showcases of the individual's best work. Each project includes descriptions, images, links, and possibly code repositories (e.g., GitHub)

## SKILLS

Python

Java

HTML

CSS

JavaScript

MySQL

MongoDB

SpringBootTOOL

React

## PERSONAL PROJECTS

### REGISTRATION FORM TO SIGN UP AND STORE USER INFORMATION USING HTML,CSS,NODE.JS IN MONGODB

- Developed a comprehensive registration form using HTML, CSS, JavaScript, Node.js, and MongoDB. Created responsive, user friendly interfaces and implemented client-side validation.

### RESUME BUILD WITH FIGMA

- project involves the design and creation of a personalized, visually appealing, and professional resume using Figma, a popular design tool.

## CERTIFICATES

Software Development by Microsoft and LinkedIn  
Career Essentials in Software Development by Microsoft and LinkedIn

Career Essentials in Generative AI by Microsoft and LinkedIn
